

Backyard Winter Bird Survey

February 8 & 9, 2025

Thank you for participating! Your data helps us understand winter bird trends across the state. Before participating please read the detailed instructions enclosed. If you participate both days, combine your results into **one survey** for the entire weekend. Submit your data online or mail it to us.

First Name: _____ Last Name: _____

Mailing Address: _____

Help us process results faster

Submit your data online
at nhaudubon.org/bwbs

We welcome participants of all ages!

I am a minor (under 18).

Reminder: Only record the max number seen at one time.
Say you saw 3 Blue Jays at 10 am and 1 at 11 am, record 3 as your count.

Email Address: _____

Watch Location (Street Address): _____ Town: _____

Brief comments (i.e., weather): _____

(Use blank spaces for additional species. Use back of page to describe details about unusual or confusing species.)

Check Off Date(s) You Watched (REQUIRED): <input type="checkbox"/> 2/8 <input type="checkbox"/> 2/9		Total Number of Hours Watched: _____ (estimate)

Black-capped Chickadee		House Sparrow			
Tufted Titmouse		House Finch		New: Eastern Chipmunk	
				Red Squirrel	
				Gray Squirrel	

Help Support the Backyard Winter Bird Survey

Yes! I'd like to support the survey and conserve NH's birds with a donation.

Enclosed is my contribution of:

\$250 \$100 \$50 \$25 Other _____

**Prefer to
contribute online?**

You don't need to be a member to donate, but we welcome new members and appreciate your support.

Yes! I'd like to join or renew my membership with NH Audubon.

Supporter \$250 Contributor \$100 Family \$60 Individual \$45 Senior/Student \$30

Enclosed is my check payable to NH Audubon Visa MasterCard Discover Amex

Acct No. _____ Phone _____

Signature _____ CVV code _____ Exp. Date _____

I wish this gift to remain anonymous.

**Thank
You!**

Mail this form to: NH Audubon, 84 Silk Farm Road, Concord, NH 03301
OR participate online: nhaudubon.org/bwbs

For Office Use Only RE Birds

Thank you for making the Backyard Winter Bird Survey Possible!

Since 1987, community members across New Hampshire have been helping NH Audubon track winter bird populations. **A monetary donation is not necessary to participate, but your gifts make this project possible. Thank you for continuing to support this project.**

Document Your Birds

Each year, we receive reports of rare or unusual birds. Without documentation it can be hard for our biologists to confirm these rare sightings. Photos are always helpful, even if you consider them poor quality.

Photos of Purple Finch, Cooper's Hawk, Sharp-shinned Hawk, Red-headed Woodpecker, and Chipping Sparrow photos are particularly helpful as these species can be confused for others. See our **Commonly Confused Species** guide on our website to learn more.

Email photos to bwbs@nhaudubon.org with your name and address.

New This Year: Count your Chipmunks.

Many have already noted a rise in the numbers of Eastern Chipmunks feeding below their bird feeders. While, we have counted Red and Gray Squirrels for many years, we are adjusting the Survey to warmer winters and counting Eastern Chipmunks for the first time this year.

Share your sightings with the community!

Tag us on Instagram @nhaudubon or connect on Facebook @New Hampshire Audubon.

Need help identifying a bird?

Check out our free digital guides to **Common Winter Birds** and **Commonly Confused Species** on our webpage nhaudubon.org/bwbs.

Unable to participate this year?

Send us an email with your email address and we will make sure that you receive a reminder next year. If you are only able to participate by mail, send us a letter with your contact info and we will mail you a form next year.

You can also sign up for NH Audubon's eNews, where you will get a Survey reminder and learn about all the other events at NH Audubon!

If you are mailing in your form please use the space below for comments and to describe any unusual or difficult to identify bird species.
